## Standard Diamond Brace Gate

Our most popular gate, with 4" x 3" top rail with a semi planed finish. This gate is ideal for an entrance gate, and strong enough for a fields gate.

Height to top of hanging stile is 47"

Height to top of top rail is 44"

Pressure treated with Tanalith E in a natural wood green.

Width	Diamond Brace Soft Wood	Diamond Brace Hard Wood
3'	DBSW003	DBHW003
4'	DBSW004	DBHW004
5'	DBSW005	DBHW005
6'	DBSW006	DBHW006
7'	DBSW007	DBHW007
8'	DBSW008	DBHW008
9'	DBSW009	DBHW009
10'	DBSW010	DBHW010
11'	DBSW011	DBHW011
12'	DBSW012	DBHW012

Widths up to 15' are also possible.

## The Escot Gate

A high specification gate made from kiln dried Scandinavian Redwood. This gate has a top quality planed all over finish. The hanging stile is ex 125mm x 57mm with an ex75mm x 75mm closing stile and an ex100mm x 75mm top rail.

Height to top of hanging stile is 47"

Height to top of top rail is 44"

Pressure treated with Tanalith E in a natural wood green.

Width	Escot Soft Wood	Escot Hard Wood
3'	ESW003	EHW003
4'	ESW004	EHW004
5'	ESW005	EHW005

11'	TTRSW011	TTRHW011
12'	TTRSW012	TTRHW012

Widths up to 15' are also possible.

### Devon Gate

This gate is popular due to its versatility. It is similar in design to the Turn Heel gate and makes a great entrance gate and a strong field gate.

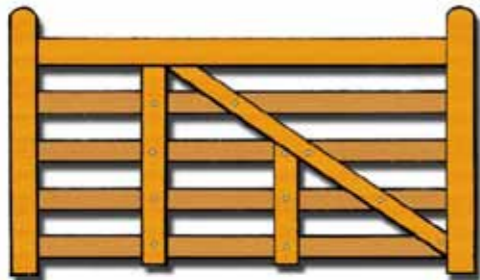

Height to top of hanging stile is 63"

Pressure treated with Tanalith E in a natural wood green.

Width	Devon Soft Wood	Devon Hard Wood
8'	DSW008	DHW008
9'	DSW009	DHW009
10'	DSW010	DHW010
11'	DSW011	DHW011
12'	DSW012	DHW012

Widths up to 15' are also possible.

### The Exmoor Gate

A strong simple design. Perfect for use as a field gate, or as an alternative choice of design for an entrance gate.

Pressure treated with Tanalith E in a natural wood green.

Width	Exmoor Soft Wood	Exmoor Hard Wood
8'	EXSW008	EXHW008
9'	EXSW009	EXHW009
10'	EXSW010	EXHW010
11'	EXSW011	EXHW011
12'	EXSW012	EXHW012

Widths up to 15' are also possible.

### The Kent Gate

A six bar gate with small gaps between the shuttles, ideal for keeping livestock of pets from escaping.

Hanging stile is ex125mm x 75mm with an ex 75mm x 75mm closing stile and an ex100mm x 75mm top rail.

Pressure treated with Tanalith E in a natural wood green.

Width	Kent Soft Wood	Kent Hard Wood
8'	KSW008	KHW008
9'	KSW009	KHW009
10'	KSW010	KHW010
11'	KSW011	KHW011
12'	KSW012	KHW012

Widths up to 15' are also possible.

### Balmoral Gate

This gate really make a statement! Made of top quality Scandinavian Redwood. Planed all round with TGV cladding and a choice of various sizes of timber for the framework. There is a choice of either a Convex or a Concave top rail.

To rail is 4"x3" and is tapered on the hardwood gate.

Softwood will be pressure treated with Tanalith E in a natural wood green.

Width each leaf	Balmoral Concave Soft Wood	Balmoral Concave Hard Wood
5'	BCCSW005	BCCHW005
6'	BCCSW006	BCCHW006

	Balmoral Convex Soft Wood	Balmoral Convex Hard Wood
5'	BCVSW008	BCVHW008
6'	BCVW009	BCVHW009

### Windsor Gate

Very similar in design to the Balmoral, made with top quality Scandinavian Redwood. Planed all round, with TGV cladding and a choice of various sizes of timber for the framework. With its straight top rail this gate is both strong and secure.

Softwood will be pressure treated with Tanalith E in a natural wood green.

Width	Windsor Gate Soft Wood	Windsor Gate Hard Wood
5'	WSW005	WHW005
6'	WSW006	WHW006

### The Barton Essex

A robust gate which offers beauty and character to an entrance way. It has a fully planed finish. Its stylish 'wave' top rail is ideally suited to pairs.

Top rail and hanging stiles both measure 4" x 3" and the pales measure 70mm x 21mm.

Pressure treated with Tanalith E in a natural wood green.

Width each leaf	Barton Essex Soft Wood	Barton Essex Hard Wood
4'	BESW004	BEHW004
5'	BESW005	BEHW005
6'	BESW006	BEHW006
7'	BESW007	BEHW007
8'	BESW008	BEHW008
9'	BESW009	BEHW009

## The Clyst Gate

Its unusual design makes it stand out from other gates. Ideal in pairs this makes a very attractive entrance or garden gate. It has a fully planed finish.

Pressure treated with Tanalith E in a natural wood green.

Width each leaf	Clyst Soft Wood	Clyst Hard Wood
3'	CSW003	CHW003
4'	CSW004	CHW004
5'	CSW005	CHW005
6'	CSW006	CHW006
7'	CSW007	CHW007
8'	CSW008	CHW008
9'	CSW009	CHW009

## The Axmouth Gate

With its TGV lower section and its open slatted top and sweeping convex top rail, this gate is ideal if you want something elegant and different from the average.

Top rail measures 100mm x 75mm

Pressure treated with Tanalith E in a natural wood green.

Width each leaf	Axmouth Soft Wood	Axmouth Hard Wood
3'	ASW003	AHW003
4'	ASW004	AHW004
5'	ASW005	AHW005
6'	ASW006	AHW006
7'	ASW007	AHW007
8'	ASW008	AHW008
9'	ASW009	AHW009
10'	ASW010	AHW010

## Closeboard Gate

Made of top quality 5" featheredge board, can be framed ledged and braced or just ledged and braced.
